DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Prior art samples:

Figures 1a, 2a - U.S. Patent 5,393,978 to Schwarz

Figure 1 - U.S. Patent 5,677,529 to Hofmann et al.

Figures 6, 8 - U.S. Patents 5,929,445 and 6,239,437 to Barone

7. As per claims 1 and 29 and dependent claims 2-28 and 30-32, the prior art teaches an apparatus comprising a lens and detector array arranged to define a first field of view (see Prior art Figs. Above). Examiner notes that the prior art teaches systems that optionally provide focused images of a distant scene onto a detection array, such as illustrated in Fig. 1a above. The examiner however, found no reference in the prior art that disclosed or made obvious an apparatus comprising a reflector arranged between a plane of a detector array and a plane of a lens to define a second field of view that extends beyond a first field of view and to reflect onto the detector array radiation entering the lens from outside the first field of view as recited in independent claims 1 and 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
